Projects

Management System for ICPC Tanta Student Community, Live Demo

Description: A web-based management system developed to support the ICPC Tanta student community, providing full CRUD (Create, Read, Update, Delete) functionality for managing members, activities, and resources.

Key Features:

- Full CRUD operations for student/member records.
- Built with **React** for dynamic and reusable UI components.
- Responsive design using **CSS** to ensure accessibility across devices.
- Implemented **React Hooks (useState, useEffect)** for state management and seamless updates.
- Enhanced usability with clean navigation and structured UI for managing student activities.

MediBuddy – AI Health Monitoring Assistant Landing Page, Live Demo

Description: A commercial landing page designed to showcase the **MediBuddy mobile app**, an AI-powered health monitoring assistant that provides personalized daily meal plans, nutrition advice, and lifestyle recommendations.

Key Features:

- Modern, responsive **React**-based landing page with **CSS styling**.
- Highlighted app features including personalized meal plans, nutrition tips, and health tracking.
- Interactive sections for **app preview, feature highlights, and testimonials**.
- Direct download links for mobile app installation (Google Play).
- Optimized for performance and accessibility with a clean, user-friendly UI.

Educational Center, Live Demo

Description: A comprehensive website designed for an educational center to showcase its offerings for students, staff, and resources, and provides an interactive platform for engagement.

Key Features:

- Display of the center's staff members and available subjects.
- Ability to download subject books or materials in PDF format.
- Interactive map highlighting the center's branches with functionality to find the nearest branch.
- Q&A section enabling users to view commonly asked questions and submit new inquiries.
- Integration with a desktop application for the center admin to manage content and queries effectively.

Travel To Egypt - Your Virtual Tour Guide🔗, **Live Demo**🔗

Description: A dedicated website for planning and booking full trips to Egypt, acting as a virtual tour guide in your pocket, and helps users create personalized travel experiences.

Key Features:

- Comprehensive tour plans with different features, prices, and places to visit in Egypt.
- Options to choose from various flight agencies and pricing packages.
- A selection of hotels to customize each tour experience.
- Calendar functionality displaying dates for each type of tour.
- Newsletter subscription for updates and travel tips.
